Business Administrator/Board Secretary

November 18, 2021

Dear Parents/Guardians:

Please be advised that we have partnered with Rover Laboratories to test students, teachers, and staff members for COVID-19 through a partnership with the Department of Health.

Rover Labs will come to each school to complete the testing. In the upcoming weeks, they will be providing testing to our students as well. After the Thanksgiving holiday, we will receive a set day on which testing will be conducted. The testing is a saliva-based test and does not require the use of any nasal swab or invasive procedures. Students will be supervised by a staff member during the testing. The PCR test results will be provided within 24-48 hours directly by text and email to a parent. Additionally, for contact tracing purposes, the principal and the school nurse will have access to the test results.

This free and voluntary service is available ONLY with your permission and consent. If you provide your consent, students will be tested periodically through a random rotation. In the future, Rover Laboratories will be providing home kits for any student who has tested positive, again free of charge.

If you are interested, please click on the school below in which your child attends. This will take you directly to Rover Laboratories website to sign up. There is a field for insurance information. This is optional and not necessary to participate.
