CARING

12/7/18	<p>The character trait for the month of December is caring. Caring involves having a genuine care and concern for the needs of others. Caring includes not just having feelings but includes reaching out to help a friend in need. All of us have many opportunities to show kindness and caring to others. Caring can include having empathy, which is being able to feel and identify what others are feeling. When we empathize with people, we naturally want to help them. Show that you care in your everyday interactions.</p>
