May 30, 2019

Dear Parents/Guardians:

As the school year progresses, there may be days with high temperatures and humidity. As of now, Mahala F. Atchison School has air conditioning. Our other two schools do not. This is part of our summer 2019 referendum work.

Please monitor the daily forecast closely and dress your child appropriately. Lightweight clothing and hydration will help. Accordingly, students will be permitted to bring plastic water bottles to school.

Please keep the dress code in mind as you and/or your child select clothing for school. We ask that you continue to consider safety and etiquette. Students should not wear flip flops, clothing that are unreasonably short in length or inappropriately revealing.

Should you have any questions, please refer to your school’s Parent/Student Handbook or contact your child’s school.

Sincerely,

Lisa Goldey
Superintendent of Schools
